SEMESTER- III

Course Level	5.0	Internal Marks	50
Programme	B. A.	External Marks	50
Semester	03	Practical Internal	--
Category of Course	MAJOR – 5	Practical External	--
Course Credit	4	Prac. External Exam Duration	--
Teaching Hours	60	Total	100
Course Code		Exam Duration	2.00 Hours
Course Title	Fundamentals of Climatology		

Course Objectives:

- The aim of the course is to provide an understanding of weather phenomena; dynamics of global climates and generation of climatic information and their application

Course Learning Outcomes: After completion of the course:

- Understand the elements of weather and climate and its impacts at different scales.
- Comprehend the climatic aspects and its bearing on planet earth.
- Understand the oceanic process and availability of resources.

Course Contents

Sem	Unit No.	Syllabi	Teaching Hours
3	1	• Meaning, Subject matter, Branches of Climatology • Weather and Climate • Origin, Composition and Structure of Atmosphere	15
	2	• Insolation, Heat -Balance of the Earth. • Distribution of temperature -Temporal, Vertical & Horizontal • Distribution of Atmosphere Pressure, Pressure Belts, Inversion of Temperature	15
	3	• Winds and their Types – General Circulation Pattern • Jet Stream,

Course Title	Physical Geography of India		

Course Objectives:

- The course is aimed at presenting an integrated and empirically based profile of India Physical: Location, Physiographic Divisions, Climate: characteristics and Classification; Soil and Natural vegetation.
- Economic: Mineral and Power Resources: Distribution and Utilization of Iron Ore, Coal, Petroleum, Gas.

Course Learning Outcomes: After completion of the course:

- Understand the physical profile of the country
- Study the resource endowment and its spatial distribution and utilization for sustainable development
- Synthesize and develop the idea of regional dimensions.

Course Contents

Sem	Unit No.	Syllabi	Teaching Hours
3	1	• India, Extent its location with South and South East Asia and Indian Ocean • Physiography of India • Drainage System in India	15
	2	• Climate -Indian Monsoon -Origen & Development • Seasons of India & Variability of Rainfall • Climatic Regions of India (Koppen's Classification)	15

Course Title	Meteorological Instruments & Indian Daily Weather Report		

Course Objectives:

- The objectives of this paper are to provide an overview of multidisciplinary nature of weather & Climate and elements of climate. Further aims to know the measurement of these elements.
- The course aims to understanding of the existing Indian Metrological Observatories and their role in India. Further aims to sensitize the students to know about weather symbols and their use in daily weather report.

Course Learning Outcomes: After completion of the course:

- Understand the basics of multidisciplinary nature of environment with meaningful outcomes.
- Understand the renewable and nonrenewable resources and role of individuals in conservation.
- Students aware about types of ecosystem, functions, characteristics of ecosystem.

Practical Record: (Teaching Hours: 30)

- A Project File in pencil comprising one exercise each, on Introduction & Drawing of Instruments & their Detail Information, interpretation of weather maps.

Course Contents

Sem	Unit No.	Syllabi	Teaching Hours
3	1	Introduction of Weather & Climate - Definition, Elements of Weather & their Measurements (Temperature, Humidity, Measurement of Atmospheric Pressure, Winds, Clouds, Precipitation, Cyclone etc.)	15
