Master of Social Work Semester-III	
Paper No –307 Agency Field Work	Credit-4
General Objectives:	
1. To understand the agency as a system –governance, philosophy, objectives, structures and management of services/ programmes 2. To develop the ability to involve the client system in the problem solving process, utilizing skills of social work interventions, including research 3. To enable to acquire knowledge and practice skills related to social work methods at the individual, group and community level in different fields 4. To develop documentation skills 5. To develop skills in identifying and utilizing community resources, both at Government and private levels 6. To develop the ability to work as a team 7. To reinforce the belief in the inherent strength of the people to meet their needs and resolve their problems 8. To enable to make conscious application of professional values, ethics and principles 9. To develop an understanding and skills in working with the professionals (Medicine, Law, accountancy etc.)	
Skills in Organizational Involvement While working with the agency of placement, the students should	
• Develop beginning perceptions about agency functioning and identify congruence or gaps between organizational stances or programs and client's service needs (e.g. restrictive intake policies, inadequate office hours, poor referral system for resources). • Initiate learning about how outside regulations, organizations and funding effect delivery of services. • Show beginning ability to identify problems/issues in organizational terms. • Demonstrate beginning initiative and involvement in efforts to influence agency processes on behalf of client's needs (e.g. at least, bringing situation to attention of someone who may be receptive and able to be influential). • Develop beginning confidence to participate and contribute to team effort, e.g. represent own discipline, develop some credibility, present own thinking, receptive to others' ideas. • To Understand the Project Proposal, Report writing, Documentation, Training Evaluation of Project, Monitoring strategy and organizational Culture. • To understand the rules regulation and HR structure of organization.
